

## TESTIMONY PUMPS ARE DEFECTIVE

Were in Bad Shape When  
Installed and Never  
Given Test

### AN EXPERT'S EVIDENCE

Governors Controlling Engines of  
Bad Design and do Not  
Control Engine Speed.

Mr. Taylor was still on the stand when the Monday afternoon session was started. Original bid for the boilers and connections was \$5,500. The A. L. & W. Co. was paid on the final estimate \$4,475. He was then asked why the engineer said if it could be installed for \$4,100 the company was paid the \$4,475? He answered that he did not know.

"There was an additional item of over \$1,000, over the total \$23,300, what was that for?" Mr. Heck asked. "I don't know unless it was in item for something in the condenser pit," was the answer.

The \$23,300 was for pumps and engines combined.

The Platt Iron Works furnished the water piping within the boiler room. Taylor said, the Atlas company only furnishing the boilers.

"Did the Platt Co. furnish 5,000,000 gallon pumps instead of 3,000,000 gallon pumps and furnishing all piping, too?" Heck asked.

"The amount of \$5,500 included all the piping under the contract," Mr. Taylor stated.

In answer to the question preceding the statement, Mr. Taylor said: "They furnished it." Later Mr. Taylor said: "I'm not able to answer to that." "Then you destroy your answer?" "Yes, sir," Mr. Taylor answered.

"In the installation of these boilers was the work according to contract?" "They were apparently all right at the time. Later some of the fire bricks under No. 1 boiler proved defective and let a grate down."

"This repair was made by the city, and cost \$15 or \$20."

"Before the noon adjournment I asked you if the Platt Iron Co. substituted the 5,000,000 for the 3,000,000 gallon pumps without any argument?" The reply was that there was some argument and the company wanted \$2,500.

We had an argument and finally Mr. Ingram agreed to do it. The 5,000,000 gallon pumps should cost \$3,000 more than the contract price, Mr. Taylor said.

"Didn't they say they would have let you have the pumps for \$3,000 less if this amount wasn't invested in the Davis plant?"

"They talked some about \$3,000 they had invested somewhere," Taylor answered.

When asked about altering contract Taylor said the Board would have to have the contractors consent to do it. He had read the contracts, he answered, when asked his familiarity with it.

The contract was read aloud and Taylor then decided the city had a right to change the work in any way. The A. L. & W. Co. were anxious to get away and Taylor said it looked as though the company didn't have a valid contract and were anxious to get away.

## BREAKERS AHEAD FOR OFFICIALS

Who Have Betrayed Their  
Trust and Pocketed  
State Funds

### MAY LAND IN THE PEN

If Money Is Illegally Loaned Crime  
Law May Be Applied Says  
Attorney.

Columbus, Jan. 25.—It was learned yesterday that the intention of Senator Beatty, of Wood county, who introduced the resolution for a legislative graft probe into state offices, was to send the grafters to the penitentiary instead of merely letting them off with civil suits to recover money secured as commissions or any illegal manner.

A belief that criminal laws have apparently been forgotten too frequently in pressing civil suits to recover graft money, and that these civil suits may be in litigation so long that the offenders might die during the legal battle, led to the resolution.

It was brought forward during the present session of the general assembly, under the belief that the people, aroused by the graft exposure of Governor Harmon, wanted not only enforcement of civil, but also criminal liabilities.

The Beatty graft probe committee has been told there is ample cause for investigation of former administrators in state offices and departments. As the Harmon-Denman probe has been inserted into the state treasury, the legislative problems have not gone into that department.

One of the charges embraces incumbents, according to Senator Beatty. The committee will proceed with dispatch in following up these charges, and will probe into as many state offices as possible during the life of the committee, which must report to the general assembly during the present session.

Sensor Beatty, an expert accountant, will work with those detailed from the state bureau of accounting for the probe, and between the three the investigation will be a most comprehensive one. Senator Beatty yesterday said:

"Whatever we find wrong in the records will be laid before Attorney General Denman, and he will be asked to commence civil, and whenever authorized, criminal proceedings against the affected officials."

An examination of Ohio laws by Senator Beatty has convinced him they are strong enough to send to the penitentiary by the wagon load state officers and attaches who have profited through the purchasing of office supplies and the collection of state money on false expense accounts. The law also, it is believed, embraces merchants and others who deal in an illegal manner with state attaches. Officers accused of selling state property, including junk, may be brought into criminal courts to plead to indictments.

There are two statutes on which the Beatty probe will rely to increase the penitentiary population. One provides a 1-to-7-year penitentiary sentence for public officers who sell state property with intent to defraud and the other a penitentiary sentence of 1 to 19 years on officers who present false bills to the state auditor and then collect on them.

Under the last the probe expects to have indicted those who received commissions on the purchase of office supplies and those who paid exorbitant prices for material. It will be claimed the excessive prices were not genuine and hence false bills were presented.

State Examiners E. F. Brown and W. C. W. Koff yesterday completed a compilation of all bills contracted and paid during the administrations of Mark Slater, J. W. Johnston and John L. Sullivan as state printers. These will be given the probe to-day and they will immediately examine them. If there are discrepancies they will be noted and the officials concerned will be summoned before the probe and examined. If they cannot explain the evidence will be given the attorney general, along with a request to commence whatever legal proceedings are authorized by law. This will be the course pursued throughout the entire probe.

The probe expects trouble in fact-finding guilt on persons under the statute relating to the presentation of fraudulent bills for payment, as those affected may assert mistakes were made in preparing the bills, and destruction of records may make trouble in proving payments of commissions.

But the probe realizes the law has the grip to send guilty men to the penitentiary.

Affinity Earl says he is tired of America. America said it first of Affinity Earle.

## FAST FLYER WAS WRECKED

Schenectady, N. Y., Jan. 25.—The Twentieth Century Limited of the New York Central was wrecked a few miles west of St. Johnsville this morning and the engineer John Scanton, and his fireman were killed. The engine flipped the track and turned over and every coach left the rails, but remained upright. The passengers escaping with a severe shaking up and minor bruises. The accident was due to the attempt of the engineer to cross from one track to another without reducing speed, the engine leaving the rails at the frog.

## TERRIBLE

Are Flood Conditions Existing in  
France, Many Villages Being  
Inundated.

Paris, Jan. 25.—The flood situation is most critical today. The military authority this afternoon made arrangements to dynamite the Albi bridge as the continued rise in the Seine makes it almost inevitable that driftwood and wreckage will lodge a disastrous dam against the bridge flooding the city. The bridge is one of the most beautiful structures across the Seine.

Reports from the river Saone section say that stream is now a raging torrent miles in width. Five villages along the Saone were inundated this afternoon, the people fleeing in terror.

The soldiers of every barracks in France are now doing flood relief service.

## DUTY

On all Cattle Which are Intended to  
be Used as Food May be  
Repeated.

Washington, Jan. 25.—As a result of the agitation against the increased cost of living, Representative Garner, (Rep. of Pennsylvania, today introduced a bill in the House to repeal the duty on all cattle which are intended to be used as food. A flood of similar measures is expected.

## SENATE

Passed Fortification Bill This Afternoon, Which Carries Approximately \$4,000,000.

Washington, Jan. 25.—The fortification bill carrying approximately \$4,000,000, nearly \$2,000,000 less than last year, and which has already passed the House, was passed by the Senate this afternoon after a debate in which Senator Newlands (Dem. of Nevada), emphasized the necessity of adequate protection for the Hawaiian Islands in view of a possible conflict with Japan.

## WORKING FOR COL. JNO. L. CLEM

Washington, Jan. 25.—Congressman Wm. A. Ashbrook of Ohio, is meeting with success in circulating a petition among the 21 Ohio house members for the promotion of Col. John L. Clem to a brigadier generalship. Congressman Gardner of Michigan representing the state from which the "Drummer Boy of Shiloh" enlisted and Congressman Shnyder of Texas, representing the state where Col. Clem is now located, will join Mr. Ashbrook in calling upon the President to order Col. Clem promotion. Each will have the support of the state delegations.

## WRIGHTS

May Be Contemplating An Aeroplane  
Flight to North Pole According  
to Peary.

Dayton, Ohio, Jan. 25.—That William and Orville Wright, the aviators, are considering an aeroplane flight to the North Pole is the belief of Commander Robert E. Peary. The brothers cornered the pole discoverer who delivered a lecture here last night, and pined him with questions about the possibilities of such a flight. He declared he thought it possible, and explained sufficient conditions minutely.

The net man who goes to the North Pole will have to take a white notary public with him.

Might be right, but good judgment is better than a bunch of muscle.

When a man puts you on the back you want to watch his other hand.

The mountain that looks the easiest is sometimes the hardest to climb.

## SAVING MILLION PER DAY

Senator Williams Answers  
"The Interests" in Probe  
of High Prices

## TOO MANY MIDDLEMEN

Aldorf Will Introduce Governor's  
Measure Which Will Save Tax  
Payers Thousands.

Columbus, Jan. 25.—To the cry of "The Interests" opposed to the state probe into the increased cost of living, that the present legislative action and agitation is "hurting business," Senator Williams, chairman of the investigating committee today in a formal statement makes a stinging reply.

Members of the committee have been attacked both privately and through the press. Senator Williams has been the special target of persons who would like to see the investigation prove a fiasco. They have tried to influence his course of action through the medium of friends.

Answering the argument that the meat business is being injured by the widespread boycott he says that the people of the country are saving at least a million dollars a day on their food bills and that if they will carry the abstemious still further to other high priced food and luxuries they will save a quarter of a billion dollars by Easter.

"It is claimed that this crusade against meat eating will drive many middlemen out of business," says the Williams statement. "But that is one of the economic reforms needed today. There are too many middlemen. Each one is an attack upon the consumer. The interest of the consumer demands that the chain of middlemen be shortened. We want free trade between the farmer and the consumer."

Governor Harmon and Senator Aldorf have been trying to figure out how much the state will save each year by having a single board manage the affairs of all state institutions.

Aldorf is out with a statement that the people of Ohio will save \$500,000 annually if the administration measure providing for a one board management is passed. He will introduce the measure.

"We are are spending in round numbers, five million dollars a year on our state institutions," says Aldorf. "There are 25,000 inmates. The expense of food and clothing is \$3,500,000 and \$1,500,000 goes for buildings and repairs. Under a one management plan the supplies for all nineteen institutions will be bought under single contracts by competitive bidding."

An entertainment that the senate will shortly enjoy is a complete exposure of the methods of the book trusts. Senator Younts of Darke county has said that he will present this in introducing his bill providing for uniform books in all Ohio schools. The senator claims that while superintendent of schools at Bradford, O., he became familiar with the trust's methods.

Sensor Beatty's committee investigating the conduct of state offices found today that Mr. Slayter, during his tenure as state printer did not keep duplicates of bills for supplies he bought. At least they cannot be found. Neither has the committee been able to locate Mr. Slayter in an effort to ask an explanation. He is said to be in Michigan. The committee is trying to find evidence that will warrant criminal action.

## PRISONER

Who Confessed to the Murder of  
Anna Schumacher Taken From  
Navy Yard to Rochester.

Portsmouth, N. H., Jan. 25.—James A. Hall, confessed murderer of Anna Schumacher of Rochester, N. Y., was today turned over by the United States authorities at the Navy Yard to Sheriff Gilbert of Rochester, who left at once with his prisoner for Rochester where Hall will stand trial.

## U. S. W. V.

On Wednesday evening at Memorial Hall, Captain Harry Syrett of Columbus, assistant inspector, will inspect New York Camp No. 21 United Spanish War Veterans. Captain Syrett informed Adjutant Roselbach that a number of the "Columbus boys" would accompany him. They will arrive at 7:45 on the interurban. Every member of the Newark camp should be a hand to assist in the work and meet the comrades from Columbus. Several comrades from Zanesville will also be present. Don't fail to be on hand. Remember Wednesday evening January 26, 7:30 p. m. Smoker after the inspection.

## STOLEN HATS ARE RECOVERED BY OFFICERS

It was reported that some time ago a number of hats were stolen from the New York Central. The hats were recovered by officers of the New York Central.

The officers investigated, and sure enough the hat proved to be one of the stolen hats.

Answer to Monday's puzzle—Pell.

## FOR WOMAN'S EYE

The following invitations were issued today: Mr. and Mrs. Fenwick Ewing, at home, Tuesday evening, February first, from eight to eleven o'clock. Mr. and Mrs. Charles W. Montgomery.

Mrs. E. Benson of Hudson avenue, is this afternoon, hostess to the Tuesday Bridge Whist club, and besides the members enjoying the progressive game, there are Mrs. J. J. Carroll, Mrs. A. H. Pitzer, Mrs. Edward King, Mrs. W. F. Upson, Mrs. Robbins Hunter, Mrs. W. H. Davis, Mrs. K. Gebhart Mathiot of Dayton, and Misses Janet and Lucy Stone of Coatsville, Pa.

On Friday evening Miss Isabelle Somers very pleasantly entertained the Delta Zetas at her home on North Pine street. At a late hour a two course luncheon was served the following members: Misses Edith Welch, Esther Kissano, Irene Haidet, Ruth Hanks, Mary Devore, Ruth Perry, Ida Schenk and the hostess. The guests of the club were Misses Marie Smith, Beatrice Stauffer, Neva Baumgarten, Hazel Whitaker, Edna Bright and Hazel Green. The next meeting will be held at the home of Miss Esther Kissano in North Pine street.

H. B. McLaughlin was very pleasantly surprised with a postal card shower on Wednesday, January 19th, it being his first birthday anniversary. He received 45 beautiful cards reminding him that his many friends wish him many happy returns of the day.

A postal card shower was given on Miss Minnie Webb on Wednesday, January 19th, it being her 15th birthday anniversary. She received 56 cards.

The Investigators club held a business session at the home of Mrs. Samuel Sachs in North Fourth street on Friday and resulted with the following officers being elected to serve for the coming year: President, Mrs. Samuel Sachs; vice president, Mrs. W. S. Turner; second vice president, Miss Olive Orr; recording secretary, Mrs. C. G. Nevins; corresponding secretary, Miss Nelle Gray; treasurer, Mrs. Tenny Reer; auditor, Mrs. Thomas Meridith; librarian, Mrs. Eugene Bail. The subjects chosen for study next year are literature, music and miscellaneous subjects.

## MARTIN-ZARBAUGH.

On Saturday evening at 5:30 o'clock, in the Second Presbyterian manse, Rev. T. A. Cosgrove performed the ceremony which united the lives of Mr. William H. Martin, who has been a resident of this city, and Miss Myrtle Zarbaugh of Columbus. The announcement will come as a glad surprise to the many friends of the young couple. They will make their future home in Columbus.

## CURE FOR LIQUOR HABIT

Give Orlene and Destroy All Desire Sold Under Guarantee.

Orlene is the most successful cure for the liquor habit that the world has ever known. It is a home treatment, given without publicity, detention from business or loss of time, and is absolutely guaranteed if the simple directions on each box are carefully followed. So remarkable have been the changes wrought for suffering drinking men by Orlene that leading ministers, charity workers, philanthropists and druggists everywhere recommend the treatment. Thousands of endorsements have been given for the remedy. Hall's drug store, 10 N. Side Square, has been selling Orlene several years in this city. Read what they say:

"ORLENE is certainly an article of unusual merit. We are glad to recommend it because we know of cures it has made."

Orlene is prepared in two forms, No. 1, a powder, absolutely tasteless and odorless, given secretly in food or drink. Orlene No. 2, in pill form, is for those who wish to cure themselves. Orlene costs only \$1 a box. In every box is a guarantee which entitles you to a refund of your money if Orlene fails to effect a cure. Write for Free Orlene Booklet (mailed in plain sealed envelope) to Orlene Co., 663 Orlene Building, Washington, D. C.

## FOR CATARRH

Medicine Free in Every Case Where It Fails to Relieve.

Neglect or pessimism, we believe, is the greatest enemy the public has to contend with when applied to the loss or recovery of health. Practically every case of consumption might have been cured if hope had been maintained and proper treatment had been resorted to at the first symptom of the disease. Until the advanced stage is reached consumption is curable. Catarrh is responsible, we believe, for many cases of consumption. It is about catarrh we want to talk to you today, incidentally consumption, since the two are so closely allied.

We have a medicine made from a prescription of one of the most successful catarrh specialists known. We believe it is positively without an equal. We are so satisfied that we are right that we will supply the medicine free in every instance where it is used according to directions for a reasonable length of time, should it fail to give satisfaction in every particular. We want every one to try this medicine at our risk. There are no conditions attached to our offer. We put the user under no obligation to us whatever.

The medicine we want you to try is Rexall Mucu-Tone. It is a catarrh remedy that goes direct to the seat of trouble. It is carried by the blood to every part of the system. It purifies and enriches the blood, tones up the mucous cells and brings about a condition of health and strength that tends to prevent the germs of consumption from getting a start. Besides this Rexall Mucu-Tone is a wonderful appetizer, digestive aid and flesh builder. Its good effects are often felt from the very first dose. It is one of the largest and most satisfactory selling medicines that we have ever had anything to do with.

We know so much of the great good that it has done that we personally back it up with our reputation and money, which fact should be ample guarantee to satisfy anybody. Rexall Mucu-Tone comes in two sizes, 50 cents and \$1.00. We urge you to try it. Remember you can obtain Rexall Remedies in Newark only at our store.—The Rexall Store, Hall's Drug Store, 10 N. Side Square.

## BREAKERS AHEAD

(Continued from Page 1.) the money as charged, could be prosecuted under section 6341 of the Revised Statutes, which provides a penitentiary sentence of from 1 to 21 years for public officers who embezzle public money.

The attorney quoted the almost parallel cases of Willis T. Pierson, county recorder, already under indictment for accepting \$66 interest on county funds deposited and Cameron, who, it is charged by the attorney general, pocketed more than \$211,000 interest on state funds loaned.

Pierson deposited the county money with a bank after the county depository law had been passed authorizing the placing of funds in such institutions.

"Cameron," the attorney said, "is charged with loaning out money when the law specifically declared that it should be kept in the state treasury. The state depository law was not in effect during his administration."

"Section 183 of the Revised statutes reads:

"The rooms assigned to the treasurer of state, together with the vaults, safes and other appliances therein, shall constitute the treasury of the state, and the treasurer shall use the treasury so constituted as the sole place for deposit and safekeeping of the moneys, bonds, notes, obligations, until the same paid out according to law."

"Section 185 says no money shall be paid out of the state treasury except on the warrant of the auditor of state. Then finally, section 6341 provides that 'whoever being charged with the collection, disbursement of the public money belonging to the state, converts to his own use in any way whatever, or uses by way of investment in any kind of security, stock, loan, or otherwise, shall be imprisoned in the penitentiary not more than 21 years or less than one year.'"

The supreme court of Ohio has held whenever public money is placed out contrary to law, such an act constitutes a loan, and not a deposit. Neither Denman nor Booth would comment yesterday about the possible criminal liability of those accused in the state house cases.

## DELIVERED FINE ADDRESS.

Dr. L. S. Boyce pastor of the First Presbyterian church, was greeted by an audience which taxed the capacity of the A. M. E. church, Liberty street, Sunday afternoon, when he delivered an address to the Forum of the church. Dr. Boyce's talk dealt with the right way of living, giving many practical suggestions and drawing all his illustrations from the life of Christ. Dr. Boyce was for a number of years, pastor of the First Presbyterian church of this city.

1813—James Marion Simms, distinguished writer and inventor, born; died 1883.  
1862—Charles J. Guiteau pronounced guilty of the murder of President Garfield.  
1906—Brigadier General Joseph Wheeler, U. S. A., retired, former lieutenant general of the Confederate States of America and prominent in public life since the civil war, died; born 1837.  
1907—Isabella Beecher Hooker, last of the children of Rev. Lyman Beecher, died; born 1822.

**ASTRONOMICAL EVENTS**  
Sun sets 5:03, rises 7:11; moon rises 5:19 p. m.; 4 m. planet Mercury in inferior conjunction with the sun, passing on the nearer side from east to west and becoming morning star; Sir Edmund Halley died, born 1687; English astronomer, because of whose discovery of its periodicity, the great comet now approaching was named Halley's comet.

The word is passing around in Columbus circles that three of the great sky scrapers of that city have been built by state money deposited in banks on which interest was paid to the several State Treasurers who made the deposits. Such scandalous proceeding and robbery of the State could not have occurred if Governors of the type of Judson Harmon had been in office.

## ASHBROOK FOR HELPING RURAL MAIL CARRIERS

The Chicksville Chronicle, a Republican paper, publishes the following special dispatch from Washington pertaining to Congressman Ashbrook's efforts in favor of increasing the pay of rural mail carriers:  
"Washington, Jan. 19—The 19 members who have introduced bills to increase the pay of rural carriers met in the office of Congressman Hinshaw to agree upon a bill, unite their efforts and formulate a plan to secure its passage. The bill agreed upon will give all carriers \$1.50 per year for 24 miles and \$2.50 per month for each mile or major fraction in excess of the standard length. The editor of the R. F. D. News met with the congressmen and endorsed the bill agreed upon. A committee of four, consisting of Austin of Tennessee, Hinshaw of Nebraska, Stearnson of Minnesota and Ashbrook of Ohio was selected to present the merits of the bill to the committee on post-offices and postroads. The members are very much encouraged over the outlook and are hopeful that the hard-worked and poorly paid rural carrier will soon receive decent compensation for the valuable service rendered the rural population. Congressman Ashbrook is the only Ohio member who has a bill pending to increase the pay of the R. F. D. boys and is the only Democrat on the committee appointed to advocate its passage."

## Little Soldiers

In your blood are the millions of corpuscles that defend you against disease.  
To make and keep these little soldiers healthy and strong, is simply to make and keep the blood of the right quality and quantity.  
This is just what Hood's Sarsaparilla does—it helps the little soldiers in your blood to fight disease for you.  
In cases of scrofula, eruptions, skin diseases, rheumatism, nervousness, dizziness, general debility, and build up the whole system.

## LAUGH IS ON REPUBLICANS

Fought Wood Bill Last Year, Must Support It This.

### WHITE HOUSE DECREES IT

Amusing Change of Front on the Majority Side. Where Leaders Excoriated the Public Utilities Measure, Home Rulers, Suspecting "Open Doors" and "Sleepers," Are Scrutinizing the Bill.

BY ORWELL C. RIDDLE.

Columbus, O., Jan. 21.—From now on the Ohio legislature is going to furnish a plenty to talk about and lots of it—talk.

Leading off with the public utilities bill, which President Taft has thrown down like a gauntlet, after the fashion of challenges to mortal combat in the days when knighthood was in flower, with expectations that the legislature will pick it up—and pass it—there are (pardon the meanderings of this sentence), I came near writing it down a thousand other bills, as there will be before the session is over.

For the present neither a correct count nor the contents of most of them is a matter of immediate consequence.

There is nothing new about the Taft utilities bill that hasn't been printed several times over since the beginning of the year. The only question about it is whether it will be the cause of intestinal disorders on the majority side that will develop a chronic insurgency which nothing short of a generous helping out of the "pork barrel" will alleviate—as it was in Washington.

Some of the Republican critics have thoughtlessly poked fun at the Democratic minority in rather ribald speculations as to what attitude the

MARSHALL N. DUVAL.

Senator from Steubenville, Believes Ohio Has Too Much Law.

minority will assume toward an administration measure from Washington. They have been jocular to excess over the probability that the minority will be driven into an embarrassing change of front because most of the Democrats joined with a small number of Republicans in putting it through the house last session in spite of the explicit instructions of "Field Marshal" Phipps, the feet-footed Mercury who acted as messenger to the Republican floor leaders from the "strategy board" concealed in the attorney general's office, where most of the moves "to block Harmon" were concocted. But possess your souls in patience. Coming to them as a sort of partisan challenge to "take that or nothing," to outflank the measures of direct consequence advocated by Governor Harmon, the minority will have no difficulty finding the right side if this session is going to be prostituted to that kind of petty politics.

The real and amusing "change of front" is going to be on the other side, where the "leaders" who made stump speeches against the Woods bill last session and vehemently asserted that Governor Harmon was simply playing peanut politics by giving the measure quas-approval, will be compelled to swing all the way round this session and champion it as a simon-pure measure because it comes from the sacred hands of the man of many tribulations in the White House. There's where all the fun will be in whatever change of front there may be this time.

Be it known of all men that Governor Harmon did not approve the Woods bill in its entirety last year. It contained some provisions he did not favor. But the "edit" had gone forth from the "strategy board" to the senate that no taxation measure of any kind was to be permitted to pass last session. The Alford bills, which suited Governor Harmon better, were strangled by the senate committee. The Woods bill having passed the house was half way through the rugged journey to the statute books.  
As it provided for a single taxation board, Governor Harmon was willing

to accept it because it would have taken a long step in the right direction, and in the hope that whatever objectionable features it may have contained, after an experience of one year, could have been remedied at the regular session this year. On the principle that half a loaf is better than no bread, the governor would have been willing to make the best of it in order to gain a year on necessary tax reforms. Even this was refused.

At the beginning this year the situation is practically unchanged. The governor favors the Alford bills, and if the minority is to be badgered with another proposition flaunted defiantly and openly in a spirit of partisan aggressiveness, then responsibility will be divided and rest exactly where it rested at the close of the special session last year.

A few words might be devoted at this time to one feature of the Taft utilities bill, as outlined in the synopsis given out for advance publication.

It has been charged, and not feebly contradicted, that the bill as drafted would destroy home rule on franchise grants. It will have to be watched closely to prevent such a joke being slipped into it, if it doesn't contain such a provision now. One published report had it that the commission was to have no discretionary powers over franchises already granted. That would leave a hole as big as a barn door for a troop of future franchisees to march through. If this "open door" policy is not in the bill now, the home-rulers will watch sharply to sound the warning if any attempt is made to so swing that door as to close "the door of opportunity" against them.

Then there is going to be a hitch over the valuation proviso. This would give the commission power to fix the valuations of utility concerns, and hamstringing any state taxation board that may be created. Senator Alford says that, while the bill does not specifically say that such valuation would be for tax purposes, that is its evident purpose.

Semi-official publication of the bill leaked out before Mr. Woods was ready for it. A copy is said to have been sent to the White House, and also that Charles P. Taft, the president's brother, and George B. Cox had copies of the bill a week ago. And yet they say the public utility corporations would oppose this feature. What, with C. P. Taft and George B. Cox favoring it? Huh! Not after they would be able to get "the right kind" of a utilities commission, with the election of governors hanging on this very point.

But more of this when there is more of it.

Senator Duval of Steubenville went back to his district one day last week to attend a farmers institute and give a talk on law-making in Ohio.

Among other remarks was this: "First let me say that I think Ohio has too much law, and I have thought so for many years. Has it never occurred to you that it is perhaps dangerous to have too many rules for the guidance of human conduct? Have you not sometimes thought that if the laws were fewer in number and much more rigidly enforced, that the cause of government and of public and private honor would be better taken care of? Perhaps you have never thought how many laws there are on the statute books that are not enforced, and that their existence is actually unknown to a large body of the people."

There are, according to the senator, 14,000 rules in the Ohio statutes to regulate human conduct, a few of which he mentioned, such as the laws against trespass, profanity, tacking up signs and others "against the peace and dignity of the state" in such cases made and provided.

It is not probable that the state codifying commission reduced the number, and there is a constant demand for more. And every new law passed at each session added to what we've got makes just that much more.

Somebody got the people of Summit county all stirred up over the rumor that county officials were going to bombard the legislature in a relentless siege to abolish the salary law. In the hope of restoring the fee system, and also to obtain an extension of term of some of them to four years.

For weeks the people up that way have been indignating over it in various ways, "writing pieces" for the papers, passing condemnatory resolutions, etc., until the furor is almost equal to the excitement over the high cost of living. A farmers institute at Copley, near Akron, put this among other resolutions: "We are emphatically opposed to changing the present law regulating the salaries of county officials." That shows how serious and in earnest they are about it.  
At the same time this resolution was adopted: "We again declare ourselves in favor of the postal savings bank and the initiative and referendum." The I. and R. part of this resolution is specially painful to Senator N. O. Mather, Republican floor leader in the senate and sentry on the watch-tower against any I. and R. movement, for these are among his farmer constituents.  
There is little real cause for alarm that the salary law will be abolished and the fee system re-established. County officials may work with that end in view, but it would not be healthy, politically, for the legislature that would take such a risk. The Copley resolution expresses a pretty general sentiment.

## WORK BEGUN ON RE-WIRING MEMORIAL HALL

The Licking County Soldier's and Sailor's Memorial building is being completely rewired, the work starting Tuesday morning. The Brackett, Mill, Mine and Supply company of Columbus having the contract. The wiring of the entire building will be completed in about three months.  
An innovation to be introduced in the auditorium by the installation of colored lights on the stage, both foot and border, the erection of a new switchboard and the placing of new dimmers. The different colored lights will be controlled by a set of switches so that they may be thrown on or turned off at will. When the work is completed it will be one of the best wired places in the state and will be modern and complete in every respect.

## OBITUARY

**WILLIAM R. DAVIS.**  
William R. Davis, husband of the late Margaret Davis, passed quietly away this morning at 11:15 o'clock at his home, 209 South First street, having been a sufferer in the past year from Bright's disease, which caused his death.  
William R. Davis was born July 16, 1842, in Cardiff, Wales, and was in his 77th year at the time of his death. When quite a young man he came to this country and shortly after his arrival he located in this city and has lived here the greater part of his life. At one time he was a well known contractor here and the last five years previous to his illness acted as janitor of the court house.  
He leaves two daughters by a former marriage, Mrs. Wm. Toomey of Cleveland and Mrs. E. L. Green of this city, and Nez and Maggie Davis by his last marriage, both of this city, besides a large circle of friends to mourn his death.  
Funeral services will be conducted by the Rev. J. M. Thomas of the Plymouth Congregational church of which the deceased was a member at the late home, Thursday afternoon at 2 o'clock, standard time, interment in Cedar Hill cemetery.

**WALTER M. ROACH.**  
Walter Munson Roach died at the family home, corner of Vine street and Luck avenue, Zanesville, at 6:15 a. m. Monday. His death was due to tubercular trouble and followed a protracted illness. The deceased was the son of Mrs. Henry M. Roach and was 21 years of age. He was a young man of unusual ability and was held in universal esteem by all who knew him. His death is particularly sad in that a sister is critically ill at the home suffering from tuberular trouble.

Surviving him, besides the mother are five brothers and six sisters. They are Alva C. Roach, Way F. Roach, Clyde M. Roach, a son of Zanesville, Geo. M. Roach, a linotype operator in the Advocate office, Mrs. H. H. Matson of this city, Mrs. Marie Ellis of Zanesville, Misses Birdie Roach, Flora M. Roach, Ida M. Roach and Margaret L. Roach, all of the home. The funeral services will be conducted at 2:30 p. m. Wednesday.

**JOEL PHILBROOK HORTON.**  
Granville, O., Jan. 25.—Mr. Joel Philbrook Horton, son of Mr. Frank P. and Mrs. Emma E. Horton, well known and highly esteemed residents of this place, died at an early hour Tuesday morning, after an illness of three or four weeks of the typhoid fever.  
The deceased had been working in Zanesville, was taken sick there and was brought to his home here, where it was thought that he could be better cared for. The deceased was in the 29th year of his age, having been born on June 16, 1890. He is survived by his parents, two brothers and three sisters, being Henry T. Horton, of Champaign, Ill., Arthur L. who lives at home, and Bertha F., Blanche F., and Mrs. Henry C. Gitter of Zanesville.

The funeral services will be held at the home of the parents on Thursday afternoon at 2 o'clock, interment to be made in Maple Grove cemetery.

## DR. GEO. B. STUART WILL LECTURE ON LOP SIDED FOLKS

The noted lecturer, Dr. George B. Stuart, will give one of his famous numbers tomorrow evening at High school auditorium. This will be the fourth number of the High school course, and will be one of the best of the season. You will miss a treat if you fail to hear a noted orator.

## KATHARINE LONG RECEIVES CHECK FOR PRIZE LETTER

Little Miss Katharine Long, daughter of G. H. Long, proprietor of the Long Department store and a happy possessor of a Keystone for \$100, among thousands of time ago Katharine found in a package of National Oats a prize offering of why this brand was the best. She immediately wrote a letter and sent it, but had almost forgotten the circumstance until yesterday, when she received a letter from the company notifying her that the judges had pronounced her letter the best, and enclosed a check for \$100.  
The little girl is a most overworked with her good fortune and is being heartily congratulated on her ability to win such splendid recognition.

We have a few Cloaks, and Suits left that we are closing out at far less than cost.

**T. L. DAVIES**

Art Goods, Corsets, Gloves, Handkerchiefs, Hosiery, Infants' Wear, Muslin Underwear, Toilet Goods, Knit Goods, Hand Embroidered Lingerie, Etc.

## **Give Your Boy Spending Money**

Of course you give your boy some spending money, because such a course is not only reasonable, but wise. Wouldn't it be also a good idea to give him some savings money?

The boy who gets only spending money, be it little or much, is far more likely to develop into a spendthrift, and then in the end you may feel that you are partly to blame for such a result. Why not give him a Savings Book, with a small sum entered in it as a starter? And then take an interest in it; encourage him to add a little to it from time to time; figure the interest with him; note the interest additions when the bank enters them in his book; show him that you are concerned not merely about his little joys of today, but also and seriously about his future success and happiness.

Think this over. And then remember that we are always glad to open such Savings Accounts, for even as little as one dollar.

## **IS TRULY FRIEND OF DENISON**

**State of Wisconsin Has Been Impaired and Further in That Direction—College Town Notes.**

Granville, Jan. 25.—Talking about Denison men, the name of Francis Shepardson was mentioned. This never was a more loyal Denison man than Frank Shepardson. The name of Shepardson is a household word with Denison life. For half a century the family bearing that name has been an important factor in the life and growth of the institution. It dates to about a time since Frank Shepardson was a small boy in knickerbockers on the streets of Granville. But if we measure time by the work he has done, it is a life time since those days of the '70s. Denison university has few, if any more loyal alumnus than Frank W. Shepardson, '92. For the past 25 or 30 years no work has been too laborious for him to undertake, if it were work for Denison. And today Dr. Shepardson's love for an interest in Denison and Granville affairs increases. At present Dr. Shepardson holds the chair of associate professor of American History at the University of Chicago, and is also editorial writer on the Chicago Daily Tribune. He is president of the Illinois Society Sons of the American Revolution, general secretary of the Beta Theta Pi fraternity and vice president of the Chicago-Denison Alumni Association.

Through such men as Dr. Shepardson the influence of Denison will live forever.

Through the generous interests of two loyal alumni of Denison, scholarship prizes have been offered to the senior graduates of Denison academy and Shepardson preparatory respectively. These prizes consist of Kappa Zeta and are awarded to the valedictorians and salutatorians of the two schools each year. With characteristic modesty, the donors positively prohibit the publication of their names in connection with their liberality.

At a recent meeting of the Denison Musical club there was a good attendance of the members and the time was most delightfully spent. The meeting was devoted to the study of songs and song writers. Mr. Carman discussed European songs and song writers, and Miss Marie Porter treated the English and American songs. Mr. Newman traced the development of the folk song and Miss Leosinski sang a group of American lullabies.

Friends of L. H. Dehman, '06, will be pleased to learn that he is having a very successful year as principal of the Morhouse High school of Eastport, La. This is the third year Mr. Dehman has served as supervising principal and science teacher of this school, which is one of the best in the state.

E. O. Bradshaw, '09, who is attending the Chicago Divinity school, is acting as pastor of the Indiana Harbor Baptist church, and is leading his congregation in the erection of a new edifice.

Rev. C. R. Sargent, '32, Denison university, who for a number of years was president of Granville, is now superintendent of a medical institute in Memphis, Tenn. Mrs. Sargent, Y. L. I., expects to join him and spend the winter months in Memphis. Dr. E. R. Pyrie, who is responsible for Mr. Sargent's appointment there, and who is at the head of several other similar institutions scattered through the country, was a Denison student in '32 and '34. He is now represented in Denison by a son and two daughters, who are now in school.

Mr. and Mrs. H. N. Barker of Hamilton, O., who have been visiting old friends here and in this vicinity during the past week, returned home Monday.

Mr. Hugh Felix of Columbus, has returned to his home after visiting relatives in Granville.

Miss Dorothy Keat, of Springfield, O., who has been visiting Miss Fannie Hilliard here for several days, returned home on Tuesday, after having had a most enjoyable visit.

Thomas Holmofth, a prominent farmer of Morrow county, was in Granville several hours on Monday, and received a warm welcome from his many friends.

Thursday of this week will be observed as the day of prayer for Denison university. Services will be held in the college chapel on Thursday morning at 10 o'clock. Thursday afternoon at 3 o'clock and Thursday evening at 7 o'clock. Dr. Francis of Boston, will be present and speak at each service. There will also be services every night at the Baptist church at 8 o'clock.

Mr. Harold Lamson of Toledo, who has been spending a few days in this village, returned home Monday.

Misses Helen Hunt, Margaret McKibben, Marion Rose, Louise Ferguson, Ella Roberts, Emily Colville, Esther Carney, Florence Montgomery were guests in the dining hall.

Miss Grace Lowden of Harrisburg, Pa., who has been visiting here during the past week, returned home Tuesday.

After a short but pleasant visit with relatives and friends in and about Granville, Mrs. H. F. Smalley has returned to her home in Crawford county.

The geographies will have to be revised and that means more dividends for the school book trust.

An Indiana editor has suddenly inherited \$400,000. Now he can bring out his poems in book form.

## **A GLOSSY SHAVE** **Many of Them Shaving Every Day But Soap Dispensing.**

Cloze shave would be of more frequent occurrence but for the tender faces of many men, which will not partake of shaving often. Heretofore, nothing has been said in these columns about shaving, a new skin discovery, in connection with its use after shaving. Its publicity and sales have been almost exclusively to its remarkable properties as an exfoliant cure; it stops the itching of once and causes the worst cases in a few days. While the application of possum after shaving is one of its minor uses, such as for pimples, the complexion, etc., shavers will find it a revelation, as it does for abrasions, roughness and severe eczema which it does for all manner of skin difficulties—keels and cures in a few hours. It is the only article possessing real antiseptic and curative value that has ever been exploited for this purpose, and will soothe and tone up the skin as no toilet preparation could possibly do.

Possum can be had for 50 cents at any reliable druggist's, particularly Frank D. Hall, who makes a specialty of it. Or the Emergency Laboratories, No. 32 West 25th Street, New York City, will send a trial supply free by mail to any one who will write for it. This is sufficient to show results in 24 hours.

## **BRIEFLY TOLD**

Mark Twain is rapidly improving in health at his Bermuda retreat.

Hugh Cannon, author of "Bill Bailey", has been sent to a poor house in Michigan.

Butter dropped ten cents in St. Louis yesterday.

Mrs. Juana Coroner aged 116, died at Patagonia, Ariz., Sunday. She was a constant user of cigarettes.

Joe E. Whitney, veteran American actor, is dead in New York.

The government attorneys are confident of a conviction in the Black Hand cases at Toledo.

For the first time in more than a quarter of a century a negro may be admitted to West Point Military academy.

James Shones, Indiana farmer, suicided and left a note saying he had committed the deed for the betterment of his 12 children.

Mrs. Mary Normandia was killed by her brother-in-law in New York because she would not elope with him.

"Cripple Creek," a Columbus gambling house outside the corporate limits was blown up with dynamite last night.

## **FAIR VIEW**

J. M. Lambert and Mr. George Eshelman made a business trip to Vanatta Wednesday.

Harry Hartman attended a social dance given by Mr. B. Edmunds near Ulica Friday night.

Mr. and Mrs. Charles Walker left on Saturday for Muncie, Ind., where they expect to spend a couple of weeks visiting friends.

Mr. and Mrs. Robert Stone are seriously ill.

Jacob Berger who has been sick for the past two weeks, is much better at present.

Gil Brooks was a caller on Freddie Eshelman Saturday.

Mr. and Mrs. John Koonts of near St. Louisville visited Friday with Mr. and Mrs. H. W. Koonts.

Albert Hartman spent Saturday in Newark on business.

There was no visiting in our locality Sunday as the roads were so drifted with snow that it was impossible to get over them.

## **FREE PILE CURE**

Sent to Demonstrate the Merits of Pyramid Pile Cure.

What It Has Done for Others It Can Do For You.

We have testimonials by the hundreds showing all stages, kinds and degrees of piles which have been cured by Pyramid Pile Cure. If you could read these unsolicited letters you would no doubt go to the nearest drug store and buy a box of Pyramid Pile Cure at once, price 50 cents.

We do not ask you to do this. Send us your name and address and we will send you a sample by mail free.

We know what the trial package will do. In many cases it has cured piles without further treatment. If it proves its value to you, order more from your druggist, at 50c a box. This is fair, is it not? Simply fill out free coupon below and mail today.

## **FREE PACKAGE COUPON.**

Fill out the blank lines below with your name and address, cut out coupon and mail to the PYRAMID DRUG COMPANY, 136 Pyramid Building, Marshall, Mich. A sample of the great Pyramid Pile Cure will then be sent you at once by mail, FREE, in plain wrapper.

## **Constipation Cure Free**

With the first signs of constipation you resort to the home methods of relief, such as hot or cold water on arising, lots of stewed fruit with your breakfast, etc., but what do you do when these fail?

The majority then start on salts and purgative waters, then change to cathartic pills, etc. If you have gone through these various stages you know they were all useless, so far as permanent results go. Now you should try just once again, and try something practical and sensible, a remedy made and intended for the purpose you are trying to accomplish. Such a remedy, as thousands can testify, is Dr. Caldwell's Syrup Pepsin, which is guaranteed to be permanent in its results. Its ingredients are such that by a brief use of it the stomach and bowel muscles are trained to again do their work normally, so that in the end you can do away with medicines of all kinds. Let it will do this. Dr. G. T. Dodson of Danville, Va., will gladly attest, and so will Mrs. S. A. Hampton of Portage, O.

To those who are still skeptical there is a way to prove these assertions without a penny of expense: Simply send your name and address to Dr. Caldwell and obtain a free sample bottle. After using it, if you are then convinced it is the remedy you need, buy a fifty cent or one dollar bottle of your druggist and continue to use it for a brief time until cured. The directions are simple and the dose is small. It is pleasant to the taste, does not gripe and is promptly effective, and these statements are guaranteed or money will be refunded.

This remedy is over a quarter of a century old and is personally taken by most physicians. It is the most effective remedy on the American market. Because of its effectiveness, purity and pleasant taste it is the ideal laxative remedy for children, women and old folks generally. Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family by returning the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. E. Caldwell, R. 530 Caldwell building, Monticello, Ill.

**FIRST REASON**  
Why the Buckeye State Building and Loan Company is the Safest and Best Place for You to Deposit Your Money.

1. Loans on real estate only. All money deposited with this company is loaned only on first mortgage on real estate. So carefully has this money been loaned that the company owns no real estate whatever—a most excellent proof of conservatism and good judgment on the part of the appraisers. Our assets \$3,500,000. Five per cent paid on time deposits. Rankin Building, 22 West Gay street, Columbus, Ohio.

## **BEATS THE HENS**

In the experiments at Ontario Agricultural College, Canada, the Prairie State incubator beat the hens hatching liveable chicks. W. F. Seymour, manager of the Bryn Du Poultry Plant, Granville, O., has accepted the agency for this company and all goods ordered through him and all goods ordered through him and all goods ordered through him.

At F. O. B. at your nearest railway station. If you want one of their valuable books on artificial hatching and rearing of chickens, drop a card to W. F. Seymour, R. F. D., Granville, O. d&w

## **ISSUES CHALLENGE**

"Timmy" Burke, 125 champion of Michigan, issues a challenge through his manager, Harry Rosen of Wyandotte, Mich. for a boxing contest before a Newark athletic club. Timmy, as a string of victories to his credit and is willing to take on any comer in his class. He has never been defeated. Communications should be addressed to his manager, 2407 Biddle avenue, Wyandotte, Mich.

## **Making Life Safer.**

Everywhere life is being made more safe through the work of Dr. King's New Life Pills in Constipation, Biliousness, Dyspepsia, Indigestion, Liver troubles, Kidney Diseases and Bowel Disorders. Their effect, but sure, and perfectly build up the health. 25c at F. D. Hall's drug store.

## **LOST.**

An opportunity will be lost if you fail to try "Bentley's White Lily Catarrh Cure." You have tried to rest, now try the best. For 30 years it has stood the test. Founded 1876. 25c.

Ask your grocer for Huber's Home-Made Bread.

**Weak? Tired? Run-down?**

These conditions come from overwork, a weak stomach, overtaxed nerves or feeble blood. When you feel "all in"—hardly able to drag about, no energy, no ambition, easily exhausted and can't sleep—take

# **BEECHAM'S PILLS**

and note what a difference they make in your condition. The stomach is the first to feel the good effects. Food tastes good, the digestion is strengthened; bowels and bile work regularly, the blood is cleansed, and the nerves rested. The whole system responds to the tonic action of Beecham's Pills. Soon there is the buoyant feeling of returning health.

## WATER WORKS PROBE

(Continued from Page 1.)

played for he work and they did the work on Sunday and Monday. Asked about \$35 worth of boots, he said they purchased for that work and are now used by the department. The York company got \$25.17 out of the \$1,324.44 and the balance went to White for his work in making the charge.

Extra pipe, bends and sleeves were necessary to make this change for the bends and sleeves used in the first place could not be used in the changed work. The channel of the creek was changed to get across the creek and to accomplish this a dam was necessary.

Asked if W. C. Barnett said the examination wouldn't bring to light anything about the board Mr. Taylor said he hadn't heard of it. Asked if Barnett knew all about the \$300,000 bond issue, Taylor said he didn't know, and denied that Barnett was a part of it. Heck said he guessed Barnett would have to be called to the stand to tell what he knows about it.

He was then shown a report of defects in pipe and valves of A. L. & W. Co.'s distribution system. It was made out in September, 1908. He was asked if any leakages were discovered after A. L. & W. Co. completed their contract, and said trouble was reported twice on Buena Vista street, and a 12-inch pipe on Cedar street burst. Pipe was cracked when it was taken out but didn't think it was cracked when it was put in.

Asked if this was a bad job in 20.7 miles of pipe laying, Taylor replied he didn't think it was. He was then asked about leakages in valves, he said they were repaired and \$500 was held out of the last estimate of the A. L. & W. Co. to do the work.

Asked about trouble with the A. L. & W. Co. not keeping light burning, Taylor said there was some trouble, but Healey claimed lights were stolen and once or twice fellows were captured.

Asked if there was trouble with the A. L. & W. Co. relative to extra tonnage, Taylor said engineer allowed it and city solicitor rendered written opinion on it, but there was a hot argument about it.

### MONDAY EVENING.

M. G. Grimes, with Besanconey & Henneberg, was called to the stand Monday evening, and testified as to the location of his employers' store. Remembered the test, or rather he remembered the bursting of a pipe at the time the store and basement was flooded and go-carts in the basement were washed away. The water went through floor and down the cellar. Said engine was stationed in the middle of the street. Witness rushed out of the store but didn't remember seeing Mr. Taylor. Spoke to Taylor the next day while he was inspecting work.

CARL H. SIMPSON. Carl H. Simpson, a stationary engineer for the city water works since November 15. Said he found the pumps in poor condition when he took charge and detailed the condition. Plungers were scarred and showed lack of oil. They were leaking and showed wear. Said they leaked about 1000 gallons a day and if tension was good leakage would stop but friction caused engines to slow down. New plungers rods are needed in both engines. Said thought plungers were of rather soft metal but also showed lack of care.

Dash pots were in bad shape and are still. Said material was on ground now for new pots and told what kind should be used. The governors controlling engines are of bad design and are still in action and do not control engine speed.

Said engines weren't properly designed. He further told of how pressure was increased and answered several questions. At the present revolution of 18 the engines would pump 1811 gallons a minute. This means about 2,704,050, running at 30 revolutions a minute it would pump 4,580,200 gallons a day. Pumps at 35 revolutions a minute would go over 5,000,000 gallons a day.

Mr. Simpson, during his technical dialog, showed himself to be thoroughly posted and the brakes had to be applied several times to permit stenographer Firmin to regain lost ground, for the language of the young engineer was so thoroughly full of technicalities and it kept the stenographer and the reporters guessing.

In his opinion the efficiency of the engines in Prof. Hitchcock's report was far too high and he is the belief that a mistake was made and that the test was too high.

Asked about the condensers he said they were all right but in his opinion they were too small for the engines.

When questioned as to experience he said he studied hydraulic engineering through a correspondence school and before going to the municipal water works he was employed at the Newark water works.

He said he knew the cylinder in No. 1 pump was honeycombed, for Mr. Crook, the engineer, at that time told him so. Said it was in bad shape now.

The pumps might be defective and still show high efficiency. Mr. Simpson declared. The discharge and suction valves leaked and stopped he said. Valves were worn on account of sand and gravel getting into them.

When questioned as to the duty of three and five million gallon pumps, Mr. Simpson's testimony agreed with that of the expert who made the test, Prof. Hitchcock.

The intake well is in bad condition from mud and sand getting in and when cleaned last week about two feet of sediment was removed. Didn't know where it came from unless it came from the crib.

### TUESDAY MORNING.

After some little delay caused by the enforced absence of Service Director Taylor, who was absent on city business, the water works probe was again started, this morning with Mr. Taylor again on the witness stand. This will probably be his last day as a witness and others will then be summoned. From all indications this week will be the last of the water works probe, but the probe into some alleged violations by duty by city of-

### What to Do for a Cough.

Here is a home-made remedy that overcomes an obstinate cough quicker than any costly medicine you could buy. Any woman can easily make it in five minutes.

Granulated Sugar Syrup, 1 1/2 oz. Pinex, 2 1/2 oz. Put the Pinex in a clean pint bottle and fill up with the syrup, made as follows: Take a pint of Granulated Sugar, add 1/2 pint of warm water and stir for about 2 minutes. Take a teaspoonful every one, two or three hours. It tastes pleasant—children like it.

This simple medicine is also splendid for colds, whooping cough, bronchitis, incipient consumption, chest pains, &c.

Pinex, as you probably know, is the most potent form of Norway Pine Compound. It is rich in all the well-known pine elements. None of the weaker pine preparations compare with the real Pinex itself. Your druggist has it, or will gladly get it for you.

The full pint of this effective cough syrup can be made for 54 cents. It keeps perfectly, and lasts a whole family a long time.

Strained honey can be used instead of the syrup, and makes a very fine honey and pine tar cough syrup.

Specials in other affairs will then be taken up.

Mr. Heck has received some written charges against officials, some of them being of a very serious nature. These charges will be taken up and thoroughly investigated by the examiner before he leaves Newark.

When Mr. Taylor first took the stand the matter of pipe laying across the Eleventh street bridge, and on the bed of the river at the Shawnee railroad bridge was again taken up. The question of the pipe on the Wilson street bridge was also gone into and Taylor said the plans were indefinite, though the specifications said all pipe should be buried at 1-2 feet. He said in all the work the engineer showed LENIENCY TOWARDS THE CONTRACTOR.

Witness told of changing 16-inch pipe line from Hollender street to Maple avenue, and told why this was done. This was the same question, and the answer was practically the same. It was given by both Christian and McLaughlin.

Several large blue print maps of the city showing the pipe laying plans were brought out so the examiner could the better understand just what the plans were and how the different plans were changed and revised.

Mr. Heck then asked about the payment of some bills and some time was taken up in the questions of Heck and the answers of Taylor.

THOMAS H. CRAFTS, of Cleveland, is a steam boiler inspector. He was called, but objected to taking the stand because he was afraid it would implicate him with the company that he worked for, the Fidelity and Casualty Co. of New York. He was an inspector of boilers and inspected the different ones in Newark. He was told by Mr. Heck that his was a court of inquiry and of record and the records would be filed in the Governor's office, for the examination is being conducted by the state. He was told that he wouldn't have to testify as to the efficiency of the boilers.

He finally took the oath without being subpoenaed and testified as to the different kinds of boilers in use today. This was in detail and touched almost every kind in use today.

He said he thought the water tube and the Scotch Marine boilers were expensive. The horizontal tubular boiler is of easy construction and cheap. After that he was excused.

Mr. Taylor was again called to the stand and was asked again about changes in the condenser at the pump house and he told of a change that was made that cost the city \$200.

Asked why a roof wasn't placed on the coal house, he said he didn't know, and wasn't sure that the plans provided for one. Blue prints were referred to to decide the question, and they showed that a concrete roof was called for, but in the altered plans, the roof wasn't considered and the city had to pay for the same. The Riggs & Sherman plans didn't provide for a roof either said Taylor in looking over the plans.

The city hired Bope to put the roof on at a cost of \$400 the witness testified. This was done after some talk by the members of the Board. The railroad switch runs through the coal house, and the track space is not covered. The coal is dumped by dump cars in the coal house. The Smith estimate for the roof was \$417.

The minute book of the B. P. S. for 1908-09 was then called for by Mr. Heck. When the book was secured Heck asked the import of a resolution passed January 21, 1908, in which E. E. Bope was paid \$114.10 the city for a sluice gate at the intake well.

"I thought Sherman paid for this," Heck said. "Yes, sir, he did," Taylor answered. "Then what does this apply to?" the examiner questioned. "I think that alludes to the reinforced top over the sluice gate well," the answer came. This is in addition to the \$625.00 itemized amount paid by Sherman. After that the board had the reinforced roof put over the well at the cost of \$110. This wasn't really completed in a satisfactory manner for the man-hole top was left it would remain open. This was considered a repair, although it really wasn't.

The entrance sluice gate should have been in the plans and specifications, but it wasn't and its construction cost \$758.25 the city paying \$106.00 of this. The amount was taken from the "T" funds.

He was then asked about the cesspools and answered it was 12 and 8 and was built of concrete and cost \$108. This was probably overlooked in the original plans it was a necessity and should have been incorporated in the plans and paid for by the A. L. & W. Co. but the city paid for it.

Asked about the cost of \$428.32 for additional pipe in the condenser pit, he said it was for the installing of the 5,000,000 pump, instead of the 3,000,000 gallon. Later he said it may have been an extra. He was then asked what the separate item was. Read bill and said it was changing of condenser slab and iron grating. It was a dark hole and the slabs were changed to iron grating to give air and light and the difference was the amount given. There is the same amount of prism lights as were planned in the Riggs & Sherman plans and cost more than the gratings. The original plans didn't provide for light or air. Mr. Taylor thinks this was provided for by resolution.

The Davis plans provided for a concrete slab or a shingle roof. Asked what represents the additional cost of \$244.50 that came in, he said for ventilated seven doors and a iron pillar between the sail and the roof. He then described the construction of the doors. The roof is a ventilated shingle roof.

The \$244.50 represents the securing of ventilation and the iron supports, for a shingle roof could be put down under the plans of the Lamb board. He was asked if he ever entered into a contract with the Riggs & Sherman for extension of pipe line after completion of A. L. & W. Co. contract and said Board employed them to get up plans for York Construction Co. for extension of lines.

The minutes of the Board of February 15, 1908, showed resolution was passed to enter into contract with Riggs & Sherman for extension of system. The resolution was passed, but the contract was not entered into by the Board. "We may have entered into some kind of an agreement, I don't remember about that," Taylor said.

The minutes of April 10 1908 were then read and showed the Riggs & Sherman firm agreed to furnish an engineer at \$100 a month and during the week of the test \$100. This was after the \$5,000 bond issue when the council was to allow 1 per cent of the tax duplicate to the Board.

This was to be until the passage of the \$5,000 bond issue. Their proposition was adopted by the board. Taylor said they had written no letter to the firm telling of the proposed bond issue.

The records fail to show a contract was passed after the resolution was passed.

There was a verbal agreement with the company as to the work, but there were no articles of agreement of a contract. Taylor has a letter explaining conditions and the bill showed a reduction of over \$50, the company failed to understand the percentage bonds. The letter was ordered by Mr. Heck.

Asked what was done for the \$900, Taylor said the company drew the plans and figured the distribution system and arranged the preliminaries prior to his dismissal and the contract with the York Construction company.

The record of July 31, 1908, showed a resolution dispensing with the services of an engineer.

The minutes of April 10 1908 were then read and showed the Riggs & Sherman firm agreed to furnish an engineer at \$100 a month and during the week of the test \$100. This was after the \$5,000 bond issue when the council was to allow 1 per cent of the tax duplicate to the Board.

**YOU ARE GROWING YOUNGER MOTHER**

**BANISH THOSE GRAY HAIRS!**

Kill the Dandruff Germs—Stop Hair Falling

Thousands of mothers are looking younger. Their gray hairs are gone. The natural color has come back, and with it a new growth of soft, glossy, luxuriant hair. Why should you look old before your time, when you can look years younger by using

**WYETH'S SAGE AND SULPHUR HAIR REMEDY**

**Dandruff Cured**

Three applications removed all the dandruff and left my scalp clean, white and smooth. Wm. Croak, Rochester, N. Y.

**It is Positively Guaranteed to Restore Faded and Gray Hair to Natural Color**

If other "so-called" Restorers have failed, don't give up hope, but give WYETH'S SAGE AND SULPHUR HAIR REMEDY a trial. You run no risk. If it is not exactly as represented, your money will be refunded.

**PROFIT BY OTHERS' EXPERIENCE**

**Gray Hair Restored**

My hair was getting quite gray and falling out rapidly and I was troubled with a terrible itching of the scalp. My head was full of dandruff, which fell upon my clothes and kept me continually brushing it off. While on a visit to Rochester I heard of your Sage and Sulphur for the hair. I got a bottle and used it. A few applications relieved the itching, my hair stopped falling out and gradually came back to its natural color. It is now a nice dark brown color, soft, glossy and pliable. Several of my friends want to use it, and I want to know what you will charge me for six bottles of it.

MISS E. A. ROSS, Sharon, Mercer Co., Pa.

**Grew Hair on a Bald Head**

For two or three years my hair had been falling out and getting quite thin until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly until now I have used four bottles. The whole top of my head is fairly covered and keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

STEPHEN BACON, Rochester, N. Y.
